Northern Territory Police, Fire and Emergency Services  
Greening Australia

A path along the Todd river will be constructed to protect the integrity of rocky outcrops. Works include seating, revegetation, interpretive signage and most importantly lighting for additional security and to highlight the attractiveness of our riverine vegetation through town.

### **Todd River rehabilitation Alice springs**

#### **4 phases of the project:**

- (1) National corridors of green Phases I region and 2
- (2) Native vegetation rehabilitation Todd River catchment, Alice Springs
- (3) Todd and Chaires Rivers and Coolibah Swamp rehabilitation
- (4) Catchment planning coordinator

#### **Representatives on the committee from:**
